PROFESSIONAL SUMMARY

I am 52, I love sport running, fitness and good mountain treks as much as modern art and literature. They are for me basis to foster creativity I need in my job.

I count 26 years professional experience.

Currently, I am freelance.

Recently I was Director at NATEA-consulting, a consultancy specialized in Architecture tools integration like Aris and Rational system architect, I am developing for 3 years new business activity around Enterprise Architecture for big transformational projects.

Previously, I worked 5 years at ARISMORE, a company specialized in Enterprise Architecture which is also french representative of the Open Group Architecture Forum. I was , member of board, executive manager if consultancy activity. I had a team of 15 seniors and P&L worth of 3 Millions €.

Before, I spent 8 years at Logica as Principal Consultant and Architect. For 2 years, I occupy a position of Technical manager, monitoring 80 architects and technical experts, including staffing.

My first ten professional years have been spent in development and systems projects at diverse companies: Lotus development, DataFinance a banking services company, Int'l masters publishers (Meister Verlag in germany) a direct maketing company.
